“ I have many fond memories of my Uncle Bill. As a child I loved to spend time on the farm, it was so different from our city life in California. Bill and Marilyn always made us feel at home even though I sometimes felt he was stern, later in life I learned he had just been blessed with that "Lumsden jaw"! When Art and I got married, Bill and Marilyn surprised us by flying out to California for our wedding. I was so excited to see them, Art finally met my "family from the farm"! Art grew to love them as much as I did. As the years went by we spent many summers at Bill and Marilyn's with some side trips added in. Art liked to work the field with Bill, he already knew how to run the equipment but Bill taught him about bringing up the hay. Once we made it to the farm if you wanted to find one you got both of them, they were always together! Deedra came along and she fell in love with Uncle Bill too. He would take her to ride on his tractor, down to the pond to see the catfish and to ride the pony. As the years went by, I would sometimes sit and talk with Bill about our family members long gone and he would keep those memories alive for me. We will always cherish our time and memories of this wonderful Uncle, he is missed dearly.
