“ John was one of my favorite friends at church. I often sat with him in Sunday School. If I missed him seeing there, I always go to his back corner of the church to get a hug. My grandmother was a Williams from the LaFayette GA area. John favors several of my grandmother's brothers. My suspicion is we may be distantly related. Have thought of him recently...just disappointed I didn't get to give him one last hug and say one last goodbye.
