“ *I loved teaching with Tiffany and always admired her patience and inner beauty. A memory that stands out for me is sharing a seat on the bus, heading back to CES from a field trip. We got onto the topic of spouses, and she shared about meeting Kevin and their love story, including Audrey and Josiah. It was clear how deep her love for her family ran. She is one of the most precious souls I have ever known.*

“ *Tiffany had my heart from the first time I met her. She was so pretty, with a sunny smile. When we first met she was taking her first chemo treatment and I was there taking treatment. It broke my heart to realize how young she was and having to go through cancer treatment. I continued to see her on Mondays when we both took treatment. Never did she not have that smile on her face even though I knew inside she was mostly unsure of her future. She made an impression in my life and I will never forget her. Kevin we know we will all meet again and get to see her in her glorified body . She just made it there ahead of us. Love and prayers to you and your family.*

“ *One of my first memories of Tiffany was at a festival in downtown Centre. We had just moved here. I was a little lost for some reason and was turning around looking for a certain booth. She made eye contact with me as if to say, " Can i help?" Those caring eyes with a lively smile drew me to her. Of course she pointed me in the direction i needed and she just smiled as she was working so hard in her own booth, but loving every minute. I remember her as someone who loved helping others any way she could.*
